

Participants Needed for Psychology Research

Empathy across Age Groups

We are currently seeking participants for a research study aiming to investigate expression of empathy across age groups using Facial Expression Analysis Software.

The study will take place in our Virtual Reality lab located at ISN Psychology, Level 6,10 Martin Street Heidelberg VIC 3084

To participate you must:

- Reside in Melbourne Victoria,
- be between 18 to 65 years of age
- have no past or current diagnosed mental health conditions.

(Participation is voluntary).

Participants can choose to partake in a draw at the conclusion of the study to win one of three Coles/Myer gift vouchers. Those participants who elect to partake in the draw will be notified via email of the outcome.

For more information and to Participate in the research study please email:
