

Participants Needed for Psychology Research

Empathy across Cultural Groups

We are currently seeking participants for a research study aiming to investigate expression of empathy across cultural groups using Facial Expression Analysis Software.

The study will take place in our Virtual Reality lab located at ISN Psychology, Level 6,10 Martin Street Heidelberg VIC 3084

To participate you must:

- Reside in Melbourne Victoria,
- identify as either third generation Anglo-Celtic Australian OR first/second generation Lebanese Australian and
- have no past or current diagnosed mental health conditions.

(Participation is voluntary).

Participants can choose to partake in a draw at the conclusion of the study to win one of three Coles/Myer gift vouchers. Those participants who elect to partake in the draw will be notified via email of the outcome.

For more information and to Participate in the research study please email:
